WELCOME

LOC welcomes all athletes, officials, coaches and medical teams, hoping that the participation in the Trail World Championship in Italy leaves you with excellent memories.

Italy is a peninsula located in the middle of the Mediterranean Sea. The Italian territory has a total area of 301.338km² delimited on the north by the Alps and on the south by the Mediterranean Sea. Italy is made up of 21 regions, including the islands of Sicily and Sardinia. Italy is the country with the richest storical and cultural heritage in the world.

This competition will take place in the National Park of Foreste Casentinesi, located in the central Appennines, between Tuscany and Emilia-Romagna.

The peculiar characteristic of the park is the forest, amongst the oldest in Europe, which covers it's whole territory. The untouched Sasso Fratino forest is nominated to become a World Heritage Site (UNESCO). In addition to the environmental characteristics, lots of ancient religious and cultural settlements of national importance can be found, like the Hermitage of Camaldoli and the Verna Sanctuary, place in which San Francis of Assisi is believed to have received the stigmata. Another unique feature of this territory is the outstanding feat of hydraulic engineering that is the Ridracoli's Dam, the artificial reservoir that supplies with drinking water 55 municipalities of Emilia-Romagna.

You quickly jump from the vegetation rich sceneries of the Tuscan side to the wide open panoramic ones of Emilia-Romagna, with peaks reaching a maximum altitude of 1650m.

LOC calls for athletes, all the participants and assistant's attention to absolutely respect for the preservation of nature, following the principle:

“DON'T LEAVE MORE THAN FOOTPRINTS, DON'T TAKE MORE THAN PICTURES”

PAYMENT

Please note that Member Federations will need to pay an accommodation deposit when they send in the PEFs. This is because the LOC must pay the accommodation in advance so they need the financial security of a deposit from the teams. The amount payable is approximately 30% of the number of athletes and management over and above the number of athletes being paid for by the LOC multiplied by the number of nights they are staying. For example if the PEF numbers are 3 male athletes, 3 female athletes and 3 management and the teams want to stay in a "Category A" hotel in a double or triple occupancy room with full board, the price will be of 75€ The deposit would be calculated like this: 9 people - 4 people paid by LOC - 5 people x 3 days x 75€ = 1.125€, first 30%= 337,50 euro, 70% remaining = 785,50 euro.

Payment by bank transfer.

On receipt of the FEF, Member Federations will receive an invoice for the remaining amount that has to be paid before the 20 May.

In resume:

Until March the 30th: 30%

Until May the 20th: 70%

Each proof of payment must be sent to info@trailsacredforests.com

Payment should be done by bank transfer.

PREVENTION ACTION CONCERNING HEALTH POLICY

In accordance with the rule 53.1 of the IAAF Competition Rules, a preventive health-related action(*) is set up for the Trail World Championships. This action aims to strengthen the medical supervision and the safety related to the specificities of trail running races. This action is managed jointly by the IAU and the ITRA, in collaboration with the Association AFT (Athletes For Transparency). This action is led by a Medical Commission composed of 3 doctors, who are the race Medical Director and a two doctors designed by the Chairman of the ITRA's Health Commission. They can take advice from the experts of their choice.

Each runner agrees to:

1. Declare the following information to the Medical Commission:

- any medical history and/or pathology in particular those which may increase risk during the sport
- the regular use of treatments and medicines during the 15 days prior to the start of the race
- all requests for or use of medicines subject to a Therapeutic Usage Exemption (TUE).

The declaration of this information to the Medical Commission must be made through each runner's ITRA health space that each runner can create free of charge on the ITRA website: www.itra.run

2. Accept to submit any urine, and/or blood, and/or capillary, and/or saliva samples and the associated analyses requested by the Medical Commission, on the understanding that the costs for the sampling and analysis are covered by the Organization.

3. Accept to answer any request the Medical Commission may make based on information they have collected, in order to discuss the runner's ability or not to participate in the competition. As a result of the meeting, in accordance with the rule 144 of the IAAF Competition Rules, the Medical Commission may declare a "no start" to the runner for health reasons. The medical information declared on the health space and the results of analysis are accessible only to the Medical Commission and the medical team of the race. Any unreasonable breach, refusal, or transmission of erroneous information in connection with the health policy can result in the runner's exclusion from the competition.

*This action has neither the vocation nor the competence to be substitute for national and international regulations concerning anti- doping.
